

TCCM Hurricane and Evacuation Information:

REIMBURSEMENT:

Full Reimbursement

- The USCG will reimburse evacuation expenses for all full and part-time Military, GS, WG, and NAF employees and their dependents. They will not reimburse contractors or intermittent NAF employees.

- The USCG will pay for hotel, meals, mileage and incidental expenses.
- You will receive full reimbursement only if you evacuate to the Safe Haven.
- If you evacuate outside the Safe Haven, you may receive reduced reimbursement (military) or no reimbursement (civilians).
- If you stay with friends or family, you will not be reimbursed for lodging (but you may still be reimbursed for meals and transportation).
- Regulations on non-traditional commercial lodging (e.g., Airbnb or Craigslist) are at present, unclear.
- If your spouse is ordered to JBMDL, you will be reimbursed for your own (separate) hotel.
- Member must bear the initial expense for food, lodging and travel; reimbursement will typically arrive in 2-3 weeks.
- Contact Ombudsman early if you have special issues (e.g., no credit card, no car).

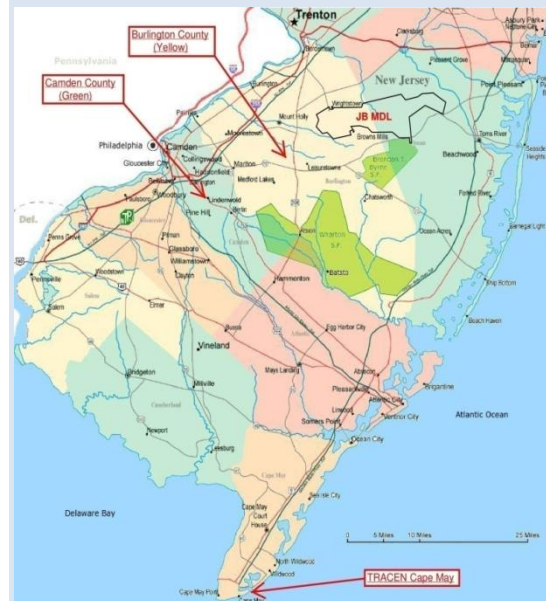

Hurricane Timeline:

Hurricane Condition (HURCON)

Hours before arrival of gale-force winds

- Condition 5: 01 June to 30 November
- Condition 4: 72 hrs until gale-force winds
- Condition 3: 48 hrs until gale-force winds
- Condition 2: 36 hrs until gale-force winds
- Condition 1: 12 hrs until gale-force winds
- Damage Assessment/Reconstitution of Base

Evacuation decision will be made in HURCON 3

Evacuation Location:

- All recruits and limited personnel will go to Joint Base McGuire-Dix-Lakehurst (JBMDL) (see map above).
- Everyone else (including all dependents) will evacuate to hotels in the USCG-designated Safe Haven, expected to be Camden and Burlington Counties (see map above).

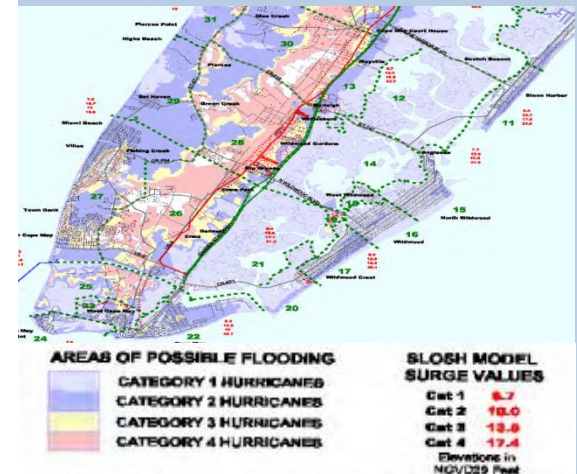

Questions:

Will I have to evacuate:

- Command will decide on evacuation at least 36 hours before the storm arrives.
- If an evacuation is ordered, you must leave housing. The buildings will be inspected, you cannot stay.

Why Evacuate:

- Cape May County is vulnerable to flooding; the highest elevation in the county is the trash pile at the MUA.
- Even a Cat 2 Hurricane could flood most of the county (see below).
- Evacuation is not just about surviving the storm, but getting out before the roads close and you are stranded without electricity, water or sewer.

What else will happen:

- The TCCM Heavy Weather and Hurricane Plan (TRACENINST 3006.1K) details what actions will be taken at each HURCON (e.g., filling sandbags, closing housing).

My Responsibilities

- Update your Emergency Evacuation Information at SPO.
- Update your personal information in CGPAAS (cgpaas.uscg.mil) or Direct Access (which updates CGPAAS)
- Make sure command knows where you and your dependents are before and after the passage of the storm.
- Make a Plan ! www.fema.gov
- Build a Kit ! www.fema.gov

- Contact your Ombudsman if you have any special needs or requirements.
- Don't forget to plan for your pets!
